## OBJECTIVE

---

Results-driven Engineering student with hands-on experience in web development, C, and Java programming. Skilled in building responsive, user-focused applications using modern technologies like React, Next.js and JavaScript. Seeking an internship to apply strong problem-solving, programming, and development skills while contributing to impactful projects.

## PROJECTS

---

### GigCampus 📁

Full-Stack Freelance Marketplace | React, Vite, Supabase

Developed a **full-stack web platform** connecting student freelancers with campus clients using **React (Vite)**, **Supabase**, and **Solidity smart contracts**. Implemented **sealed bidding**, **on-chain escrow payments (Sepolia Testnet, USDC)**, and **real-time chat** to ensure secure, transparent, and collaborative project workflows.

### Admin Dashboard

React (Vite), Tailwind CSS, ShadCN UI, Node.js, Express.js, MongoDB

A **dynamic and interactive dashboard** built using **React, Tailwind CSS, and ShadCN UI**, featuring a responsive sidebar, reusable components, and data-driven charts. The frontend connects to a **MongoDB database** via a **Node.js + Express backend**, enabling real-time data fetching and updates. Implements clean component-based architecture, smooth animations, and modern UI design principles for analytics and system monitoring.

### Sentiment Analyzer

Python, Machine Learning, FastAPI

A real-time sentiment analysis website built using **Gradio** for the frontend and **FastAPI** for the backend. The system uses a fine-tuned **HuggingFace BERT model** to classify text into positive, negative, or neutral sentiments with high accuracy. Implemented **clean API endpoints**, enabling instant predictions, error handling, and smooth client-server communication.

## SKILLS

---

### Web Development

HTML/CSS, Javascript, React, Next.js, Express.js, MongoDB, Node, ShadCn UI

### Programming Languages

C programming, Java

### Tools and Platforms

Git/Github, VS code, Replit, pgAdmin

### Soft Skills

French Language, Teamwork, Collaboration, Leadership, Collaboration

## ADDITIONAL EXPERIENCE

---

### TEDxCRCE(PR Manager)24-25

- Managed outreach, PR, and partnerships for TEDxCRCE annual conference.
- Increased student and corporate participation through strategic promotion and media collaboration.

### GDSC Workforce Member 23-24

- Organized Bit-n-Build International Hackathon fostering innovation among developers.
- Coordinated event logistics ensuring smooth execution for 100+ participants.

### Hackathons

- SIH 2024 Participant
- Bit-n-Build(GDSC international hackathon) 2024 participant.
- Bit-n-Build(GDSC international hackathon) 2025 finalist.

## EDUCATION

---

Mary Immaculate Girls' High School

2021

Prakash College of Science and Commerce

2023

Fr.Conceicao Rodrigues College of Engineering

2027

Cgpa:7.58
